

TITLE: Java / .net Developers needed for Force.com Developer positions

COMPANY: CRM manager, headquartered in Malvern, PA, is a leading Software as a Service (SaaS) implementation and integration firm in the Mid-Atlantic region specializing in salesforce.com and Google Enterprise solutions. We are designated as a Top 10 Sourced Partner for salesforce.com with proven methodologies and a high caliber reputation. Join us, we offer you a flexible work environment and local clients. Work from home if you like, except when on site at client. Be with a leader in the industry who is growing nationally.

JOB DESCRIPTION: As a Developer you will be trained in Force.com. After training, you will be responsible for developing and supporting solutions on the Force.com platform.

Specific areas of concentration include:

- Working closely with clients and our other consultants to determine project requirements
- Building client-specific solutions on the Force.com platform using Apex and VisualForce
- Developing integration processes using salesforce.com's Web Services API and third-party integration tools (Apex Data Loader, Boomi, Scribe, Informatica, etc.)
- Web service integration in the API
- Effective, expedient completion of client projects

Required Skills/Experience:

- B.S. in Computer Science/MIS with a demonstrated record of academic excellence
- 4+ years total development experience
- Expert knowledge of object-oriented methodologies and approaches
- Expert knowledge of relational databases and data modeling
- Expert in Java or .net
- Proficiency in HTML/XHTML, XML, CSS, AJAX, SQL, Java, SOAP-based web services
- Familiar with MVC framework
- Client-focused attitude
- Able to commute to client locations in the Greater Philadelphia Metro Area
- Excellent analysis skills and the ability to develop processes and methodologies
- Self-starter who can multi-task
- Team player with strong communication and interpersonal skills
- Detail-oriented individual with the ability to rapidly learn and take advantage of new concepts, business models and technologies

Desired Skills/Experience:

- Experience with ETL tools
- Knowledge of enterprise systems, CRM, SFA and ERP
- 1 year experience in consulting
